

**Flexoprint AB
Wrapping paper 2025**

Flexoprint AB is FSC® certified.

We purchase environmentally certified raw materials from sustainably managed forests. This gives us the possibility to follow all the steps in the process for a higher responsibility.

FSC® works for an environmentally friendly, socially adaptive and an economically viable use of the worlds forests.

The mark of responsible forestry

We use "Green Energy" which means that the energy that we use comes from renewable sources like sun, wind and water.

Our energy is certified by Naturskyddsföreningens strict environmental requirements of their label "BraMiljöval".

We have only used waterbased ink for a long time in order to cherish both our employees and the environment.

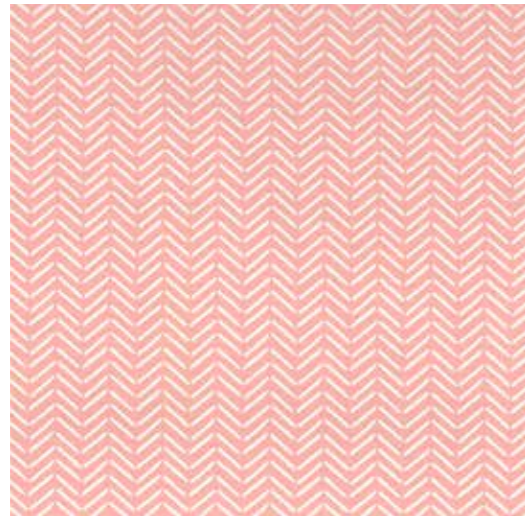

We continuously work with upgrading and evaluating our certificates in line with our sustainability work.
